Zara Simon has created yet another stunning and unique collection for Spring Summer 2011. Incorporating best selling pieces from her previous collections with new and exciting designs, Zara has produced a beautifully classic and yet truly innovative collection.

The signature **Trinklet** necklace features alongside a stunning new **Sand Web** trio which take inspiration from the sandy beaches of Brazil where Zara has spent much time in the past few years. The new **Disco** ring stands out with a smaller more delicate stone in pink tourmaline or tsavorite set upon a large labradorite or green amethyst.

Spring Summer 2011 shows Zara Simon doing what she does best – creating wearable, beautiful jewellery with unique design and contemporary yet, classic style.
