

Zara Simon

Zara Simon is a free spirit who embodies the elegance and natural beauty that is so abundant in the exquisite jewellery she designs. Focusing her work around the use of coloured and semi-precious stones, Zara brings Ibiza's elements to life with her dynamic designs. Her classic hummingbird pendant is a superb representative of her range, which was inspired by the rich fauna and flora of the area.

As her reputation has grown as one of Ibiza's style ambassadors, so her jewellery has become an essential addition to any self-respecting socialite's wardrobe. Drawing on elements seen in the Asian subcontinent's fine craftwork, as well as the simple but funky styles of the Ibicencan locals, Zara's work is an eclectic mix of layered necklaces, earrings and eye-catching pendants that bear the unmistakable raw energy of Formentera. Crafted from gold and gold-plated silver with semi-precious stones, Zara Simon pieces are unique collector's items that perfectly marry fashion and fine art.
